The Bridgeport Story

1857-Gold discovered at Bodie-Aurora -Dog Creek and Mono Lake and 4 years later-1861 on April 24th Mono County was created, with Aurora-the County Seat.

1864-Nevada admitted as a State-and the California Nevada State Line Established - placing Aurora in Nevada. The County Seat was moved June 14, 1864 to Bridgeport-The first house was built in 1863, at the present Town Site-previously the camping ground for Teamsters hauling Lumber and Supplies to the Mines of the area.

1861-Cattle and Sheep introduced into Bridgeport Valley-Ranching continued to be the leading Industry after the Mining Boom ended-in the 1880's.

Poor roads into this section from the south and west-little or no publicity plus inadequate transportation delayed for several years the progress of Bridgeport as a Recreation Area.

In the early 1930's better roads were built. Faster transport made Bridgeport only one days easy drive from the Los Angeles area.

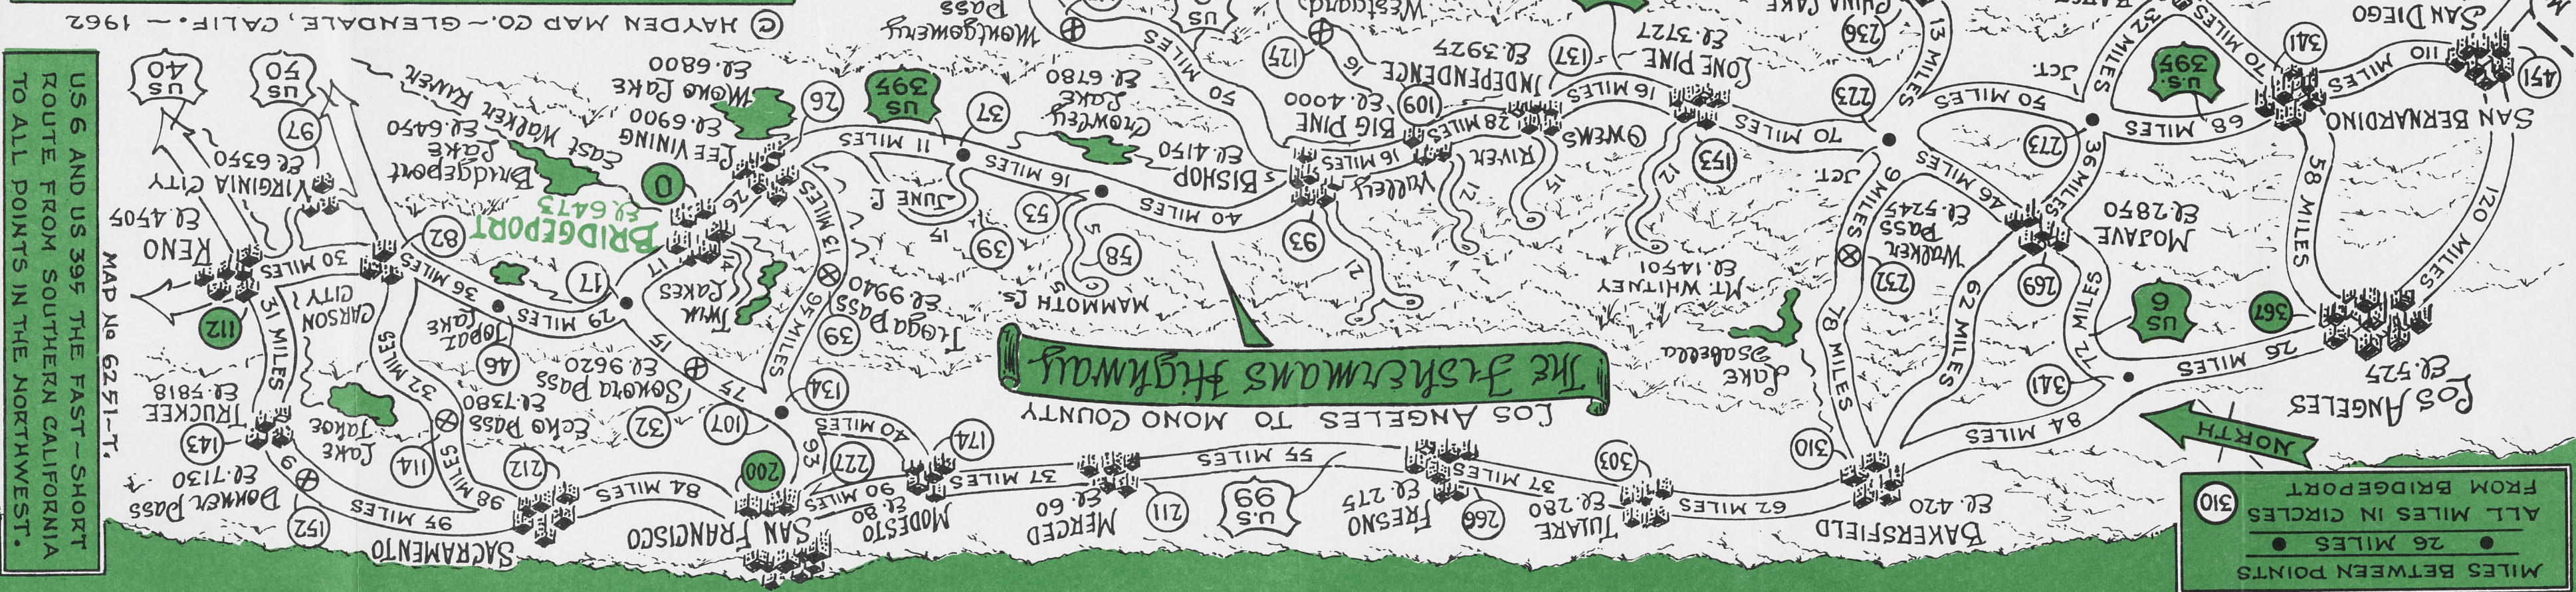

Increased publicity - An influx of Vacationers - New and better accommodations to please the most fastidious has made this area - and Bridgeport Valley particularly - the Vacation Capital of Northern Mono County.

The Merchants and Business Men welcome you and your family-you will be delighted with the wonderful high dry climate, the many Scenic and Historic points of interest throughout the area. Whether you prefer Fishing-Hunting-Exploring or just loafing-you will find the proper atmosphere here - Bridgeport Valley is the place to spend your -

Complete Vacation.
